"Make peace with your past So that it doesn't spoil your present"

This is a beautiful and meaningful saying which reveals profound meaning about our daily life. Everybody in the world desires to enjoy peace of mind, peace in the family and in the society where one lives and works. When we are alone, there are no disturbances; we are so peaceful. But when others come into our life, we are disturbed, our normal routine as well as our mental health is disturbed. Whether we like or not, we have to live with others, work with others and mingle with others. The society and the other persons influence the rhythm of our day to day life. This is the reason why the other was seen as "hell" by the great thinker Jean Paul Sartre.

It is so obvious that we lose our peace of mind because of others. We put on mask or printed smile when we are at home or at work place. We are neither happy about ourselves not about others. We have only regrets about the past and ill feelings among ourselves. It was rightly said by Mark Twain, "Twenty years from now, you will be more disappointed by the things you did not do than by the ones you did."

But at the same time, no one can deny that the other, the family or the society contribute so much towards the healthy mind. I sincerely appreciate all the writers of this spark of Light magazine. All the articles analyze the various external factors that impact on the healthy mind of the individual person.

I profit this opportunity to wish all the Nurses who do miracles in the life of the people "A very happy *Nurses' day*" May God bless you all for all that you do to have healthy body and mind.

BISHOP'S MESSAGE

Greetings in the name of our lord Jesus Christ.

I feel immense pleasure to pen a few words in the fourth issue of the magazine "LIGHT". The external factors play a vital role in creating a healthy mind. Healthy mind gives people a happier life with holistic maintenance of healthy relationships. Our actions and works determine the quality of our connections and relationships with the people around us. From this perspective, it is necessary to have healthy mind so that we can enjoy healthy and harmonious connections with others in family, society and work place. It is time to assess our pattern of thinking and what we can do to quickly reorganize the manner in which we think. The role of society is important for every individual to have inner peace. This applies to all forms of bonding we have in life. The magazine "LIGHT" encompasses on healthy mind in third and fourth issues. I applaud the efforts of the editorial committee and hope that this fourth issue will be the reminder to look on the healthy aspects of our mind. My blessings and prayers will be persistently flow for the success of the magazine of Our Lady family.

FROM READER'S PEN

Sep 2017-Feb 2018 "LIGHT" magazine I read, I enjoyed and I'm benefited a lot from the "LIGHT". One can very well learn from it, how to be healthy in mind, body and spirit. The cover page is very meaningful and attractive, according to the theme inside, "The Healthy Mind". I like it very much. The central theme flows all

through the topics, well chosen and only one idea is stressed in all the topics but covers all the stages of human life. All the topics deal about one's need to be healthy in mind which ultimately leads to the wholeness of a person which is so beautifully brought out. The effort taken by the chief editor Rev. Fr. T. Arokia Baskar, the faculty and the students is marvelous indeed. Even the short captions in boxes both in English and Tamil are very impressive and informative. I congratulate heartily the wonderful work of Our Lady family. May God be praised and glorified in your entire endeavor.

Dr. M. Vijayarani., M.Sc (N), Ph.D.,

Assistant Professor, ESI College of Nursing, Bangalore.

I'm very delighted to pen a few words about the "LIGHT" magazine of Our Lady of Health School and College of Nursing. It has enlightened the readers with rich and recent information on various areas of health. I should appreciate the students and faculty who have contributed their valuable efforts in developing the magazine. The standard of the articles published are highly appreciated. I wish to

have every issue of the magazine as it is highly informative. I appreciate all the members of the editorial team and the contributors for bringing out the beautiful magazine in use. I wish all the very best for the future achievements of the institution. I would also suggest the students' research projects and dissertations may be published in the magazine as it would act as big platform for the changes in the health care.

Mr. Bharathi Rajan, OT Nurse and Sales Executive Officer, Johnson and Johnson (P) Ltd., Chennai.

Greetings from Johnson and Johnson private limited. I feel very happy to carve my feedback about the "LIGHT" magazine. The articles of the third issue were really fantastic and the information was arranged very elegantly in a manner that all learners could understand and perceive the knowledge regarding the health care concerns. I had

witnessed the tiring efforts of both faculty and students to bring forth the eminent aspects of healthy mind. I wish all the very best for the future efforts of the institution. We are waiting to see your different approaches, variety of ideas and nurturing mode of knowledge among the readers.

PEACEFUL MIND IS A HEALTHY MIND

Dr. CHRISTIANA JOSEPH,

MBBS., DOPGD in USG.,
Sonologist,
Our Lady of Health Hospital,
Thaniavur.

What is it we are all seeking in this world?
Peace and happiness. What prevents us from enjoying Peace?
Fear, anger, revenge, unforgiveness and guilt.

How many sleepless nights have we spent after an argument, unwilling to forgive? There are so many people you can't forgive - someone who betrayed your trust, cheated you of money, property, causing you great financial loss. Someone who harmed you physically may be a close relative you trusted. Someone has destroyed your reputation by spreading false rumors. How can I forgive you cry out, my life is ruined.

We are all prisoners, trapped in a prison of our own making, building around us walls of bitterness and unforgiveness.

Is there any escape? Yes, there is a master key which will open the door, and we can experience true, peace and happiness. Jesus used this key in His life, and proved it works. Jesus taught us to love our enemies, and showed us by example. There on the cross, hanging in pain, with His last ounce of strength He cried out 'Father forgive them' This is the most powerful prayer that has been prayed.

We also have a choice to forgive unconditionally. Forgiveness is the first step that releases us from the chains of a hurt heart. This transforms our relationship with others, we experience reconciliation and ultimately we can truly love the person who hurt us. According to the Lord's Prayer, we say 'Forgive us our sins as we forgive those who sin against us. Only when we forgive others we can also expect God to forgive us. Once we experience true forgiveness, we can enjoy peace of mind. Learning to pray this prayer sincerely from your heart could be the most important thing you will ever do in your life. This master key designed by God can unlock the most difficult problems in your life.

We can choose an attitude of forgiveness in all the ordinary things of life. First, make a list of people you need to forgive. As you read each name, decide to forgive that person and pray, 'Jesus I choose to forgive this person'. As you pray through your list, you realize that God is washing away your bitterness and replacing it with peace. We should also spend some time recollecting our past sins we have committed and caused sorrow and pain to others. We need to ask God to forgive us, and also go and reconcile with the persons concerned.

- At home right from when you wake up, with your family, with your noisy neighbors.
- As you come to work, in the traffic.
- At your working place Choose not to lose your temper
- Choose not to argue. Choose not to retaliate when provoked.
- Face life with a calm, happy smile.

This is not humanly possible, you think. But if you have constant contact with a God

who forgave His enemies, who did not retaliate when beaten and spat upon, it is possible to receive His nature. On a regular basis, commit to spend quiet time with God. This should be preferably in the early morning, before you face the world. Sit at the feet of Jesus, read a passage from the Bible, meditate on it, and practically apply those teachings in your daily life. Pray quietly. Prayer is talking to God. Thank Him for His blessings, talk to Him about your problems, in the family, at your job. Ask for His guidance and wisdom, and invite Him to be with you the whole day. I believe God wants us to have an abundant life and free of stress. And I believe it is possible for you and me to enjoy this by praying the most powerful prayer on earth. 'Father forgive those who sin against us'. This will truly give us heavenly peace on earth.

Nine things to give up if you want to be Happy.

- 1. Complaining.
- 2. Limiting beliefs.
- 3. Blaming others.
- 4. Negative self talk.
- 5. Dwelling on the Past.
- 6. Resistance to change.
- 7. The need to impress others.
- 8. The need always to be right.
- 9. The need for others approval.

Nothing is impossible for us.

Remember "If we can't,
then who can?"

MENTAL HEALTH AND MEDIA GADGETS

Mrs. N. IRAIMANI,
M.Sc (N), MBA.,
Vice Principal, College of Nursing
& HOD
Dept. of Medical Surgical Nursing

"The mind and body are not separate what affects one, affects the other"

Media is an excellent source of information and entertainment. It plays a very important role in our daily lives. Media helps to know about the happenings in every second in and around the world

Facts on blue whale game

The Blue Whale Game, also known as "Blue Whale Challenge", in 21st-century claimed to exist in several countries, beginning in 2016. Of the top 50 cities in the world the highest concentration of blue whale challenge searches the top 32 positions are held by Indian cities. More than 240 youth people died by the above said deadly game.

Media

Media is a means of mass communication (broad casting, publishing and internet) regarded collectively. Media greatly affects thoughts positively as well as negatively.

Gadget

Gadget is a small specialized mechanical or electronic device which includes mobiles, tablets, laptops, video games etc.,

Positive effects

- Earth has become a global village through television and internet, within minutes media spreads knowledge, information and news from one part of the world to the other.
- Media educates the people of the basic rights, jobs, policies and activities of government.
- Media helps to divert the unwanted thoughts and suicidal tendencies also.
- Gadgets encourage cognitive learning and development of analytical skills.
- Gadget helps in developing innovative thinking, strategic thinking, and investigative skills and increases the creativity.

Negative effects

- Media is the most influential factor for the people to resort violence. Children are exposed to violence on television, movies and video games. It will make the children more aggressive, fearful and violent.
- Assault, violence, child abuse in media also leads towards crime in the society.
- Facebook makes the person to feel socially isolated and causes depression and insomnia problems.
- The American academy of pediatrics has warned about the potential ill effects of social media in kids and teens including cyber bullying and facebook depression.

- Media makes the children to addict to the internet which triggers sadness (ex. Blue whale game), less well being, mentally unhealthy and have less social interaction with the persons.
- Gadgets will restrict the physical activities.
- Gadgets affect the writing skills of the children and poor concentration in academic performance.

How to manage social media addiction?

- Focus: Limit the number of social networks usage and those most relevant to your work and personal life.
- Fix a schedule: Schedule use of social media in the same manner like check email, whatsapp and facebook work out and play video games etc.,
- Set a timer: Setting a timer with an alarm will help you to know when should be the stopping and starting of something else.
- Find Diversions: Engaging in any other activity of interest like sports, travel or social work, or spending time with family on weekends can be good diversions.
- Limit Use at Bed Time: Research has revealed that use of gadgets or social media suppress melatonin, which disrupts body clocks. It will lead to insomnia problems and hormonal imbalances. So control over the use of media during night time will help to develop a healthy mind and healthy body.

MENTAL HEALTH AND EDUCATIONAL INSTITUTIONS

"Caring for the mind is as important and crucial as caring for the body. In fact, one cannot be healthy without the other"

College is the place of learning and selfdiscovery for young adults. But it's also a period of emotional instability with the potential for serious psychological consequences. In earlier days, only physical health problems were considered and mental health was neglected. But, we know today that a big group of total population is students and students' lives are becoming more stressful. Stress is part of their college life involving greater academic demands, new financial responsibilities, change in social life, exposure to new people and adjusting to rigorous programme of theory and clinical practice. All these factors make them more prone to physical and mental illness.

Common Mental Health issues among collegs Students

- Depression and mood fluctuations.
- Relationship abuse and interpersonal related violence and abuse.
- * Eating disorders.
- Drug and substance abuse.
- Homesickness.
- Confusion about career issues and direction.
- Academic concerns and study skills development.

- Time management and anger management.
- Feelings of isolation and loneliness.
- Confronting hate, discrimination and prejudice.

Tips to Maintain Mental Health

- Value yourself Treat yourself with kindness and respect. Avoid self criticism
- Develop a support network Form a group of close friends. Stay in contact with your family. Make plans with supportive family members and friends, or seek out activities. Avoid to be alone.
- Be active Exercise is important for your mental outlook and helps ward off depression.
- ❖ Eat well Choose a wide variety of healthy, nutritious foods. Eat regularly to keep up your energy.
- Get enough sleep Sleep is vital to your mental well-being. Go to bed at a reasonable hour. Wake up at the same time every day.
- Set goals You'll be more motivated and positive if you set goals to achieve with in the year.

- Build on your confidence If you know you're good at certain things build on the confidence you take from these activities rather than concentrating on your faults.
- Help others Volunteer your time and energy to help someone else. You'll feel good about doing something tangible to help someone in need.
- Learn how to deal with stress Practice good coping skills. Research shows that laughter can boost your immune system, ease pain, relax your body and reduce stress.
- Quiet your mind Do mindfulness exercises.
- Master time management Be on time to class. Finish assignments on time. Set up a study schedule and stick onto it. And make sure you balance your work schedule with time for leisure.

Measures to be taken at Institution Level

- Formulation and development of curriculum emphasizing the significance and prevention of mental health problems.
- Organizing workshops, seminars to understand mental health issues.
- Emphasis should be laid on guidance and counseling services.
- Counselor must be posted in each college. He / she must conduct the counseling session for students and whenever necessary students should be referred to hospital.

MENTAL HEALTH AND HOBBIES

Mrs. J. JOICE ELIZABETH RANI
M.Sc (N)
Assistant Professor & HOD
Dept. of Fundamentals of Nursing

Hobbies and leisure are truly important for all. The hobbies are not only fun, but they can refresh the mind and body; assist one in staying healthy, active and happy. It is a proven fact that spending time doing the things that we enjoy can help to maintain the mental health, delay signs of aging and the pleasure in participating can lead to positive feelings that can help to fight against some illnesses.

Hobbies and leisure can be beneficial in a variety of ways. Take a look at some of these beneficial factors and examples of hobbies based upon the benefits you would like to reap!

Benefits of hobbies

Reduces stress. Transitioning the focus from the chaos of life to a fun, easy and enjoyable task can instantly help to reduce stress levels. This may include painting, photographing, journaling or even bird watching etc.,

Improves mood. Taking a break to do something you already love beats an extra hour spent at the office anyway. Investing in hobbies can feel similar to taking a break and enjoying yourself and obviously breaks and joy often produce an improved mood.

Encourages socialization. Though not all, but some hobbies can help to encourage

socialization where you would otherwise spend time alone by participating in group hobbies like team sports, clubs, or other activities that draw a crowd.

Improves memory. Studies have shown that people who regularly challenge themselves through puzzles, games, and reading cannot only improve their memory but also help themselves to avoid memory loss.

Relieves depression. If hobby of choice is an activity a person can find happiness in, it can easily help to let-out the feelings of depression and sadness.

Hobbies increase productivity by making use of time more efficiently. It helps to escape from symptoms of mental illness. Hobbies restore a sense of normality to your life.

Hobbies for Good Mental Health

Meditation: If a person can't able to sit still long enough to relax, meditation can be accessed through yoga classes. By stretching and breathing for forty minutes and our body is ready for the meditation process.

Dance: If people don't feel comfortable joining a dance class, dance at home. Turn on your favorite music and start moving it's bound to improve your mood!

Mind-body exercises: Exercise like yoga relaxes our mind and connect the body as a whole.

Walking / running: One of the best parts about walking or running is that a person can take a scenic route to take in the sights and sounds of this beautiful world.

Music: The most common medium of art and healing is music, both listening to and composing it helps to relieve stress and calm your mind.

Gardening: Just the simple act of being out in nature is an enjoyable experience that soothens a person's soul. The sounds, the smell, the breeze and the sunlight of these all help to calm your mind and improve your mood.

Painting: A beautiful and soothing way to tranquilize your mind is to paint.

Crafting: Working on craft projects, such as sewing, knitting, scrap booking and a wide range of projects, is another interesting hobby that keeps you occupied and puts your mind at ease. During crafting exercises, you focus on a particular item or pattern and thus forget the things that stress your mind.

Photography: Another creative and fun hobby that can also prove to be productive is photography. Seeing the world through a photographer's lens can be a deeply contemplative practice as you begin to see things differently.

Reading and writing: In order to relax, both reading and writing are common hobbies that people use. Reading can be the best way to relax. Simply reading newspaper or book, even for just 6 minutes, can be enough to reduce stress levels by 68%. It helps to slow down the heart rate and ease muscle tension.

Cooking: A great stress buster, cooking is pleasurable and stress-busting. It almost works as a therapy to clear your mind and serves as a creative outlet.

Simply cutting and chopping food can be a great calming ritual. while people may be consumed with many treatments and therapies, sometimes all you need to lift up your spirits and improve your over all mental health is a little time spent by doing above said hobbies.

MENTAL HEALTH AND WORK PLACE

Mrs. S. JOYCE MARY SELVAM,
M.Sc (N)
Associate Professor & HOD
Dept. of Child Health Nursing

Introduction

The mental well being of people at work is good for everyone and enhances personal and organizational resilience and success. Everyone has a role to play, both in looking after their own mental health and creating a mentally healthy workplace.

Key facts

- Work is good for mental health but a negative working environment can lead to physical and mental health problems.
- Depression and anxiety have a significant impact due to negative working environment. It leads to lost productivity.
- Harassment and bullying at work are commonly reported problems, and can have a substantial adverse impact on mental health.

Work - related risk factors for health

There are many risk factors for mental health that may be present in the working environment. Most risks relate to interactions between type of work, the organizational and managerial environment, the skills and competencies of employees, and the support available for employees to carry out their work.

Mental Health risks

- Inadequate health and safety policies.
- Poor communication and management practices
- Limited participation in decision making or low control over one's area of work
- Low levels of support for employees
- Inflexible working hours; and unclear tasks or organizational objectives.
- Risk may be increased in situations where there is a lack of team cohesion or social support.
- ❖ Bullying and psychological harassment (also known as "mobbing") are commonly reported causes of work related stress by workers and present risks to the health of workers. They are associated with both psychological and physical problems. These health consequences can have costs for employers in terms of reduced productivity and increased staff turnover. They can also have a negative impact on family and social interactions.

Creating a healthy workplace

A healthy workplace can be described as one where workers and managers actively contribute to the working environment by promoting and protecting the health, safety and well-being of all employees.

- Protect mental health by reducing work related risk factors.
- Promote mental health by developing

the positive aspects of work and the strengths of employees.

- Learning from the motivations of organizational leaders and employees who have taken action.
- Understanding the opportunities and needs of individual employees, in helping to develop better policies for workplace

Mental health tips at work place

- Awareness of sources of support and where people can find help.
- Implementation and enforcement of health and safety policies and practices, including identification of distress, harmful use of psychoactive substances and illness and providing resources to manage them.
- Involving employees in decisionmaking, conveying a feeling of control and participation. organizational practices that support a healthy worklife balance.
- Programmes for career development of employees.
- Recognizing and rewarding the contribution of employees.

INFLUENCE OF SOCIETY & CULTURE ON MENTAL HEALTH

Fr. AMIRTHARAJ M.Sc., M.A., M.Ed., M.A., M.Phil.,

Sociologists study how people get along together in groups. They study culture, social institutions and how they affect invividuals. The sociology of mental health encompasses the cultural context in which people live, as well as the social stressors that people encounter as a part of life.

To escape isolation, every person becomes member of the group. The capacity to relate with other members is not inborn but a matter of experience and training. According to Ian Robertson, society is the group of individuals sharing the same territory and participating in a common culture.

There are unlimited ways in which society influences the mental health. This can also differ in different cultures. After all, we are social creatures who are very much shaped by external forces. Pressures from society may restrict us from doing jobs which we may not like. Society prevents us from committing morally wrong acts due to fear of punishments. It limits our behaviors as we fear of being judged.

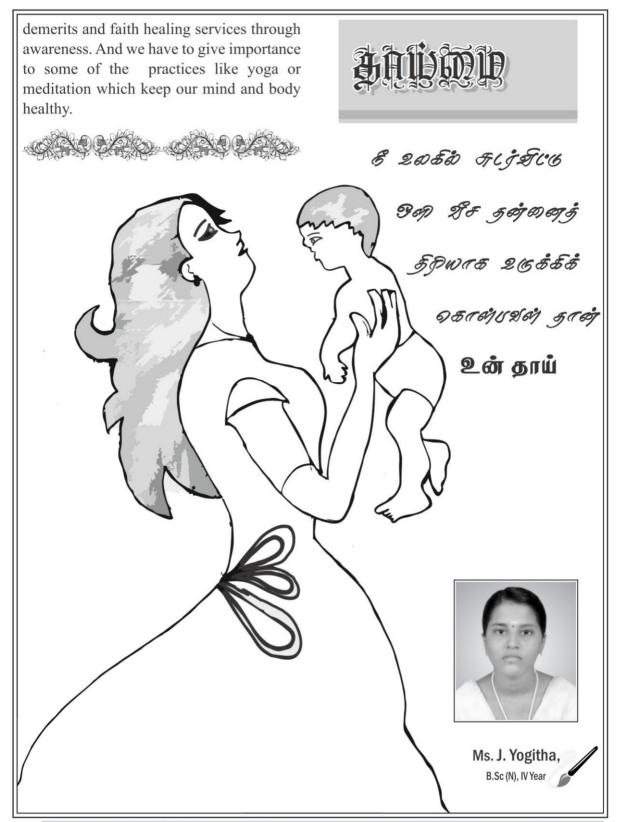

Culture is a system of acquired or learned behavior which are shared by and transmitted among the members of the society. Culture is transmitted from generation to generation. It controls human behavior and human society. According to Malinowski, culture the handwork of man and the medium through which he achieves his ends.

Society and culture influence many aspects of mental illness including how parents in a given culture express and manifest their symptoms, their style of coping, their family and community supports and their willingness to seek treatment. Likewise the cultures of the clinician and the service system influence diagnosis, treatment and service delivery.

People often think of mental health as a very personal matter that has to do only with the individual. However mental health in general is affected by culture and society. This is often ignored. The relationship between culture, society and mental health is highly concrete in our country from ancient era. And this is followed in this twenty first century. Mental health practices are fully dominated by different cultures in our country.

More people are willing to seek help. In contrast mental illness is often more stigmatized other cultures. As a result people and their families may deny mental illness out of shame of being identified as crazy. Others may find the lable depression morally unacceptable. shameful and experientially meaningless. Treatment may be actively resisted by someone who comes out of this sort of culture.

So it is highly necessary to bring awareness to the people and orient them to follow modern mental health services, it is also necessary of find out the merits and

MENTAL HEALTH AND FRIENDS

Mrs. K. SARANYA, M.Sc (N) Associate Professor and HOD Department of Psychiatric Nursing

"One best book is equal to hundred good friends but one good friend is equal to a library"

- Dr.A.P.J.Abdul kalam

Friends are important to health and happiness. If you need to cry, laugh or forget about your worries, friends are important immune system.

Quality counts more than the Quantity. Making more friends is not important. Having true and positive friends is important. The reason is that a person with true and positive friends will keep you healthier and help you to deal with stress even more better. Really they will add enjoyment to our lives and provide comfort in times of need, it helps to enhance our mental health. If a person has false friends he/she will end up with lot of problems, issues and worries. Moreover, it disturbs the complete mental health of an individual. A mentally healthy person won't see qualities, weakness, beauty or richness of his/her friend instead they will accept the person exactly as he/she is.

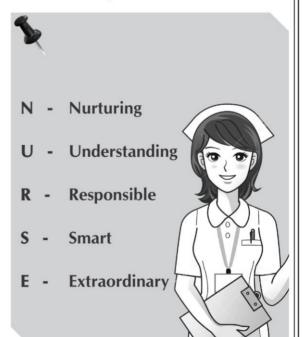

Friends are like a barryguard that protects our mental health. Friendship means understanding not agreeing. It means forgiveness not forgetting. As we all know a famous quote; "A friend in need is a friend indeed" which portrays that friends are the helping hands when we are in need. We may

talk to friends in confidence about things which we wouldn't discuss with our family members. The glory of friendship is not only in the joy of outstretched hands, kind smile and joy of companionship but also the spiritual inspiration that comes to someone who is willing to trust him with his lifelong friendship.

So, having good friends in your life can help you to rebound from the negative hits you take in life and also inspire you to be the best as you can...I wish you all have the greatest gift of life that is friendship.....

MENTAL HEALTH AND FAMILY

 $\label{eq:mrs. K. THAMARAISELVI, M.Sc(N)., Ph.D.,} M.Sc(N)., Ph.D., Principal$

A family functions as a nucleus in transmitting and transforming a healthy mind in an individual. Family fulfills the emotional needs of an individual. It controls the activities of the members within the family. The family members will have certain responsibilities, duties and obligations. The happiness in the family depends on how best the members discharge their responsibilities in coordination with the other individuals of the family. Family has a predominant role in shaping the individual's behavior. The attitude of the parents towards the child, towards other people, events and objects influences one's individuality. The happy family only can give conducive atmosphere to develop a healthy mind.

Healthy mind refers to the attitude and the perception of oneself with the living and non living things in this universe. It is not pertaining to knowledge and skill. Man being a social animal, the happiness and cheerfulness are attained solely through adjustment with other. The family imparts practical education to the child concerning the customs in society, conduct, culture, conservation of health, love, sympathy, sincerity, honesty, cooperation and consciousness of responsibility. It moulds the characters and personality of the individual.

Each family is a seed to the society. Like a fertile seed, a family with a fertile quality will only be useful to the society. The fertile qualities are speaking truth, honesty, respect and accepting the difference of others, being grateful and non judgemental.

An individual, who can serve one's own role within the family to one's own satisfaction and at the satisfaction of others as well, will tend to possess a healthy mind. The possession of healthy mind is expressed through the character of an individual.

The mother and father, being the first teachers, should instill only the right code of ethics and conduct. It can be achieved as follows which in turn develop a healthy mind in an individual.

- 1. Job, money, settlement are very important certainly but not at the cost of paying less attention and care to the young ones.
- 2. Family's role is not only allowing the children to enjoy the freedom, but also should impose control over the erroneous doing. Make them understand the effect of their misdeeds among others.
- 3. Make them realize that even others have same feelings like expectation, fear, worries etc. it is proved scientifically that we have the right to refuse the baby's demands from 3rd month of life.
- Cultivate the habit of accepting failures.
 Say no to your children when the demand even though you are capable to

meet their demands. Success never comes at once. It is the fruit of hard work, patience and perseverance. If any failure occurs, let us celebrate the failure and make fun of it.

- 5. Our children are precious than their talents and success. We should not force the children to achieve our target. Our children are not race cars. We should be aware that they are the human beings with feelings.
- 6. Never ever compare the child with others. Rather compare and appreciate today's performance with yesterdays.
- 7. Spend the quality time with children. In case if we yield to the demands of the children during temper tantrums, they tend to learn that behavior for achieving their desires. So let us satisfy their needs when they exhibit polite behavior.
- 8. Have a check on controlled use of media. Observe carefully and read the minds of children whether they are in trouble from their changes in activities.
- 9. Be a friend and listen to all experiences and exposures they are having daily without any compulsion.
- 10. Allow the children to choose their career on their own. Do not force them, otherwise it will pave the way for their dissatisfaction and frustration.
- 11. Don't be afraid to correct the children when they do mistakes. After all they are our children.
- 12. Don't involve in their issues after marriage. Be a passive listener because we may not be aware of their actual

situation. Many divorces occur due to parental intrusion. Let us remember that our children are grown up and they have got their own decision making skill.

Peace is the beauty of life. It is sunshine. It is the smile of a child, the love of a mother, the joy of a father, the togetherness of a family. It is the advancement of man, the victory of a just cause, the triumph of truth.

இன்றைய காலகட்டத்தில் இயல்பாய் இருப்பவர்கள் சிலரே பொய்யான முகத்தோடு திரிகிறார்கள் பலரும்.

ஆயிரம் கவலைகள் அனைவர் முகத்திலும் இனிமையாக பேச தெரியவில்லை யாருக்கும் மனிதனின் இதயம் மிகவும் பழுதடைந்து உள்ளது சரி செய்யதான் யாருமே இல்லை இவ்வுலகில்!

நம்மை குழந்தையாய் தூக்கி கொஞ்சிய நம் பெற்றோரை இன்று நாம் நிமிர்ந்து கூட பார்ப்பதில்லை.

அதென்னவோ பெண்களை பெற்றவர்கள் மட்டும் கொஞ்சம் ஆறுதல் அடைகிறார்கள். எப்படி பட்ட மனம் நம்முடையது.

பெற்றோரை பாதுகாக்க வேண்டிய நேரத்தில் இப்படி முதியோர் இல்லத்தில் விட்டு விடுகிறோமோ?

கொஞ்சம் மனதை திறந்து பாருங்கள் உங்களுக்காக அவர்கள் பட்ட கஷ்டங்கள் உங்களுக்காக அவர்கள் செய்த தியாகங்கள் நினைக்கும்போதே உருக வேண்டாமா மனது! அன்பு மட்டும் தான் கொடுக்க கொடுக்க வளர்ந்து கொண்டே இருக்கும் எதையும் எதிர்பார்த்து அன்பு செய்தால்

ஆளுமை என்பது அதிகாரம் செய்வது அல்ல மாறாக நம் மனதை நாம் ஆளுவதே ஆகும் தெளிவான சிந்தனை, தீர்க்கமான முடிவு தன்னலம் கருதாது பொதுநலம் பேணுதல், பயிற்சி, விடாமுயற்றி அனைத்திற்கும் மேலாக அன்பு ஆகியவற்றின் கலவைகான் ஆளுமை.

இவற்றிற்கெல்லாம் சொந்தக்காரராக அன்னை தெரசா அன்றோ நம் கண்முன்னே அகப்படுகிறார் ஆம், ஆளுமை நம்முள்ளும் இருக்கிறது. ஆளுமை நம்முள் தூசு படிந்தல்லவா துவண்டு கிடக்கிறது? நாம்தான் கோபம் என்றும் கொள்ளை நோயோடு குடித்தனம் நடத்துகிறோம்.

பொறாமை என்னும் புற்றுநோயோடு புதையல் தேடுகிறோம் புறங்கூறுதல் என்னும் பெரியம்மையோடு புது நடனம் பயில்கின்றோம். ஆணவம், அகங்காரம் எனும் கருந்துணியால் அகக்கண் மறைத்து கண்ணாமுச்சி ஆடுகின்றோம்.

உள்ளதை உள்ளபடி உணராமல், சிறியதையும், பெரியதாக மாற்றியமைக்கும் மாயக்கண்ணாடி கொண்டு அல்லவா உலகை உற்று நோக்குகிறோம்.

நம் மீது அட்டைப்பூச்சியாய் ஒட்டிக்கொண்டிருக்கும் இவை நம்மை பாதாள சாக்கடைக்கு பக்குவமாய் அழைத்து செல்லும் பாதணிகள் என்பதை ஏற்க மறுக்கிறோம்.

நம் முதுகை நாம், பார்க்க வழி காணாமல் அடுத்தவர் முதுகை ஆனந்தமாய் பார்க்கிறோம். நம் அடிமை விலங்குகள் அறுபட்டு வெகுநாளாகியும் அறியாமை இருளில் அகப்பட்டு அல்லவா அகல மறுக்கிறோம். நம் சுயத்தை தொலைத்து, சுடுகாட்டை அல்லவா சொர்க்கம் எனக் கருதி வீரநடை போடுகிறோம். ஆளுமை என்பது பெண்களிடம் தான் பிரவாகமாக பெருகிக் கிடக்கிறது.

அதனை தன் முனைப்பு போர்வையில் புடம் போட்டல்லவா

புதைத்து வைத்திருக்கிறோம்.

நாம் குடும்பம் என்ற குட்டித் தீவில் கடமை கயிற்றால் கட்டுண்டதாக காலம் கழிக்கிறோம்.

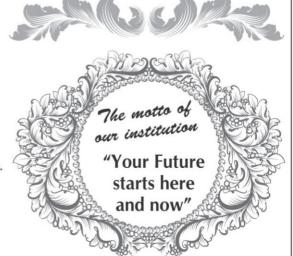

நம் எண்ணம் விசாலமாகும் போது நமக்கு தடைபோடும் கருவி இப்பிரபஞ்சத்திலேயே இல்லை என்பதை புறக்கணிக்கிறோம்.

சுதந்திரமும் ஆளுமையும் புறத்தில் இல்லை அகத்திலே தான் அகப்பட்டு அரண்டு கிடக்கிறது. நம் சுயம் என்பது வைரம் போன்ற தெளிந்த நீரோடை

அதில் முக்குளித்து ஆளுமை என்னும் முக்கெடுப்போம்.

வாரீர் தோழிகளே! வாரீர், அப்போது கடவுள் கை கொடுப்பார்

> சொந்தங்கள் சொர்க்கமாகும் புமி புதிதாய் தோன்றும் காலம் நம் கைவசமாகும் ஆளுமை நம்மில் பிரகாசிக்கும்.

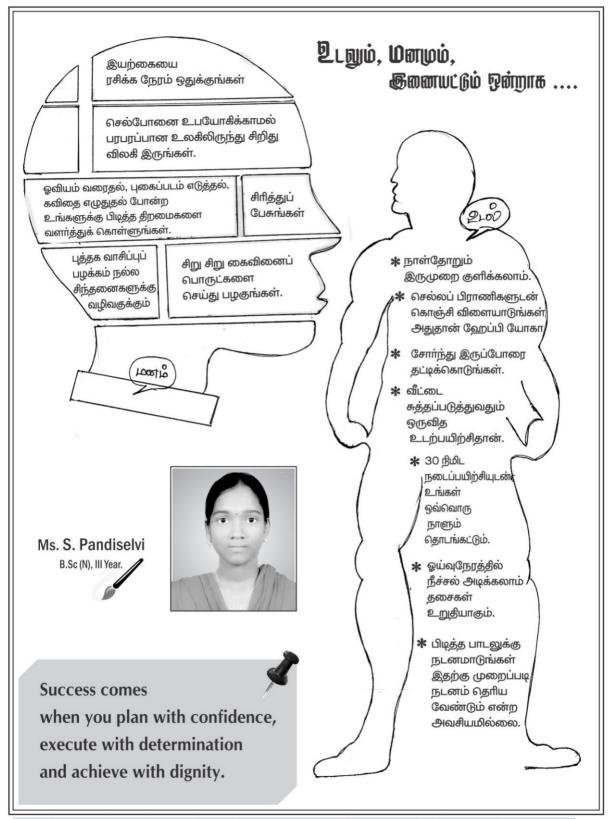

மனிதனுக்கு பல முகங்கள் உண்டு மற்றவர்களுக்கு நன்மையையும் அன்பையும் அரவணைப்பையும் அருளும் முகத்தை பிரதிபலிப்பதே உண்மையான முகம்!!

The Antidote for Mental illness

"Happiness comes when head, heart and hand work in harmony"

Yoga, a form of Hindu Mysticism, had its origin in an idealistic monism, the vedanta Philosophy. The yoga system advocates identification of the soul with its final aim being union with supreme being.

This is brought about by the following eight steps:

- Self control (Yama) is obtained by such devices as chasity, non-stealing, non-violence, truthfulness and avoidance of greed
- Religious obseverance (Niyama) is through chanting of the vedic hymns, ansterity, purity and contentment.
- Assumption of certain Positions (Asana)
- Regulation of breath (Pranagama) = With controlled rhythmic exhalation, Inhalation and temporary suspension of breathing.
- ♦ Restraint of the senses (Pratyahara)
- Steadying of the mind (Dharna) => through fixation on some part of the body, such as the nose or navel.
- Meditaion (Dhyana) => On the true object knowledge, the supreme spirt, to the exclusion of the other things in life.
- Profound contemplation (Samadhi) => with such complete absorption and

detachment there will be insensitivity to heat and cold, pain and pleasure.

The ultimate goal in fusion with the absolute during which the person experiences the higher wisdom and the most profound truth of being true. Yoga gives the best-answer to your entire life.

Success?

See your goal
Understand the obstacles
Create a positive mental picture
Embrace the challenge
Stay on track
Show the world that you can do it

- மஞ்சள் கருவை நீக்கிவிட்டால் முட்டையில் உள்ள கொழுப்பின் அளவு குறைந்து போய் விடும். அதிக கொழுப்பு அளவை கொண்டிருப்பவர்கள் வெள்ளக் கருவை மட்டும் சாப்பிடுவது நல்லது.
- முட்டையின் வெள்ளைக்கருவில் உடலுக்கு நன்மை தரும் குறைந்த கொழுப்பு கொண்ட புரதம் நிரம்பியிருக்கிறது. அதனால் வெள்ளைக் கருவை மட்டும் சாப்பிட்டு வந்தால் உடலுக்கு தேவையான புரதச் சத்து கிடைத்துவிடும். கெட்ட கொழுப்பு குறையும்.
- முட்டையின் மஞ்சள் கருவில் அதிக கலோரி உள்ளது. வெள்ளைக்கருவை மட்டும் சாப்பிடுவது உடல் எடையை குறைக்க விரும்புபவர்களுக்கு நல்லது.
- வெள்ளைக்கருவில் இருக்கும் பொட்டாசியம் இரத்த அழுத்தத்தை சீராக்கவும், இதயத்துக்கும், எலும்புகளின் ஆரோக்கியத்திற்கும் வலு சேர்க்கும்.
- வெள்ளைக்கருவில் வைட்டமின் ஏ, பி12 மற்றும் வைட்டமின் டி நிறைந்திருக்கிறது, வைட்டமின் பி12 தசை சிதைவு, கண்புரை, ஒற்றைத் தலைவலி போன்ற பிரச்சனைகளுக்கு தீர்வு அளிக்கின்றது.

வெள்ளைக்கருவை சாப்பிடும் வேளையில் மஞ்சள் கருவை அறவே ஒதுக்கிவிடவும் கூடாது. அதிலும் ஊட்டச்சத்துகள் நிறைந்துள்ளன. எனினும் அதிக கொழுப்பு, உடல் எடை பிரச்சனை, சர்க்கரை நோய், ஜீரணம் தொடர்புடைய பிரச்சினைக்கொண்டவர்கள் வெள்ளைக்கரு சாப்பிடுவதே சிறந்த தீர்வாக அமையும்.

Bible And Mind

In the world many people are affected with worry, danger loneliness and sorrow etc. How to you Prevent this? We should prevent in many ways. But I will explain the ways via spiritually, how to live with healthy mind and healthy life?

1 3/			
Question	Answer		
1. If you are in sorrow?	Read John 14:27 Peace I leave with you: my peace I give you. I do not give to you as the world gives: Do not let your hearts be troubled and do not be afraid		
2. If you have sinned?	Read Psalms 51:7,11 Cleanse me with hyssop, and I shall be clean: Wash me/ and I shall be white like snow. Do not cast me from your presence or take your Holy Spirit from me		
3. If you are in worry?	Read Matthew 6:31, 34 Do not worry, saying what shall we eat or what shall we drink or what shall we wear? Do not worry, about tomorrow, for tomorrow will worry about itself, Each day has enough trouble of its own.		
4. If you are in danger?	Read Psalms 91:3, 4 Surely He will save you from the fowler's snace, and from the deadly pestilence. He will cover your with His feathers and under His wings you will find refuse: His faithfulness will be your shield and rampart.		
5. If your faith needs more strength?	Read Hebrews 11:1,2 Now faith is being sure of what we hope for and certain of what we do not see.		
6. If you feel down?	Read Romans 8:31 What then, shall we say in response to this? Do God is for us; Who can be against us?		
7. Do you want peace?	Read Matthew 8:31 Come to me, all you who are weary and burdended and I will give you rest.		
8. If the world seems bigger?	Read Psalms 90:9 All your days pass away under your wrath we finish our years with a moan.		
9. If you feel lonely?	Read Psalms 28:1 The lord is my shepherd, I Shall not be in want.		
	Read I Corinthians 13:4,5 The lord is my shepherd, I Shall not be in want.		
10. If you glow bitter?	Read I Corinthians 13:4,5 Love is patient, love is kind It does not envy it does not boast, it is not bound. It is not easily rude, it is not self - seeking: it is not easily angered it keeps no record of wrongs.

ஹெட்போனில் இருந்து நேரடியாக காதுகளுக்குள் செலுத்தப்படும் 90 டெசிபல் ஒலியானது. காது கேட்பதில் தொடங்கி காது கேளாமை பிரச்சனை வரை ஏற்படுத்தும்.

ஒருவா் 5 நிமிடங்களுக்கு மேல் 100 டெசிபல் ஒலியை கேட்கிறாா் என்றால் அவருக்கு காது கேட்காமல் போக வாய்ப்பு அதிகம் என்பது குறிப்பிடத்தக்கது.

சொந்த ஹெட்போனை மட்டும் பயன்படுத்தும் பழக்கத்தை ஏற்படுத்திக் கொள்ளுங்கள் பிறர் ஹேட்போனைப் பயன்படுத்துபவர்களுக்கு எளிதில் காது சார்ந்த தொற்று நோய்கள்ஏற்பட வாய்ப்பு அதிகம்.

மிகவும் அடைப்பான ஹெட்போன்கள் உங்களுக்கு மிகவும் அருமையான இசை அனுபவத்தை தரும். அதே நேரம் உங்கள் காதுகளுக்குள் காற்று செல்லாது. அது காது இரைச்சல், காது தொற்று நோய் மற்றும் காது கேளாமை போன்ற பல பிரச்சனைகளுக்கு வழிவகுக்கும்.

அதிக நேரம் ஹெட்போனைப் பயன்படுத்திக்கொண்டிருக்கும் நபருக்கு மிக விரைவில் உணர்ச்சி இல்லாத நிலை ஏற்படும் என ஆய்வறிக்கைக் கூறுகிறது.

உட்புற காது மூளையோடு நேரடியாக இணைப்பில் உள்ளதால் ஹெட்போனில் இருந்து வெளிவரும் மின்காந்த அலைகள் மூளையை மிகவும் பாதிப்படைய வைக்கும். இதனால் மூளை சார்ந்தப் பிரச்சினைகள் ஏற்படும்.

எப்படிப்பட்ட ஹெட்போனை பயன்படுத்தலாம் ?

மிகச்சிறிய ஹெட்போன்களை, அதாவது நேரடியாக காதுகளின் ஓட்டைக்குள் செல்லும் அளவில் உள்ள ஹெட்போனைத் தவிர்க்க வேண்டும்.

காதுகளுக்கு வெளியே இருக்கும்படியான பெரிய ஹெட்போனை பயன்படுத்துவது நல்லது. முடிந்தவரை உங்கள் ஹெட்செட்களின் ரப்பாகவாகளை (அ) ஸ்பாஞ்ச் கவரை மாதத்திற்கு ஒருமுறை மாற்றுவது நல்லது.

உங்கள் ஹெட்போன்களில் ரப்பாகவா் (அ ஸ்பாஞ்ச் கவா் இல்லையென்றால் ஹெட்செட்டை அடிக்கடி சுத்தம் செய்யும் பழக்கத்தைக் கையாளுங்கள்.
